Important information about your life insurance policy
from the New York Department of Financial Services

Please be advised that if you surrender your policy at this time prior to the expiration of an equity index crediting
period, no additional interest based on the equity index will be credited, since the equity index crediting period
has not yet expired. Only the guaranteed interest, if any, will be credited to the account.

To avoid losing additional interest based on an equity index, you are advised to consider alternatives to a full
surrender of the policy prior to the crediting of additional interest based on the equity index, such as a policy
loan or, if available, a partial withdrawal of the policy. Please speak with your advisor to determine which option
is best for you.

☐ New York state policy holders please check here to indicate you have read and understand the
above information. New York state policy holders must return this page with a checked box in
order for surrender to be processed.

You are encouraged to consider the following possible alternatives to requesting a surrender of your life insurance policy. These alternatives include, but are not limited to:

- **Accelerated Death Benefit**: Your policy may provide an early or accelerated discounted benefit payment if you have a terminal or chronic illness.

- **Cash Surrender**: Your policy may have a cash surrender value your life insurer would pay if you cancel it.

- **Gift**: You may be able to gift your policy to your beneficiary, who would then assume responsibility for paying premiums.

- **Life Settlement**: You may be able to sell your life insurance policy to a third party for an amount greater than the cash surrender value or accelerated death benefits under your policy. You pay no further premium. The third party becomes the policyholder and receives the benefit upon the insured’s death.

- **Third-Party Loan**: You may be able to get a loan from another party to pay your policy’s premiums. In return, the lender may require an assignment of a portion or all of the policy’s death benefits.
